LANGUAGES

Spanish	Native
English	Advanced (B2)

Software Engineer with 3+ years of experience building SaaS products for the Costa Rican financial sector, including electronic payment platforms (SINPE), 2FA authentication, and digital banking for credit unions. Additional experience in technical pre-sales for Microsoft Cloud solutions (Azure, Fabric, Power Platform).

PROFESSIONAL EXPERIENCE

SDR / Pre-Sales Engineer

Servicios Computacionales Novacomp S.A. · San José, CR · Hybrid
October 2025 – February 2026

- Generated and qualified opportunities for **Azure, M365, Power Platform, MS Fabric, and Azure DevOps** solutions, averaging ~10 qualified meetings per month.
- Led technical-consultive conversations translating business needs into Microsoft Cloud and AI solution roadmaps; evolved into independent pre-sales, leading workshops and proposals without direct supervision.

Software Engineer

Innovative S.A. (Novacomp Group) · San José, CR · Hybrid
October 2022 – September 2025

- Developed and maintained 4 fintech SaaS products for clients including Scotiabank, DiDi, Improsa Valores, JUPEMA, and national credit unions.

NovaMP SINPE — Electronic Payments Platform (BCCR) *C#, .NET, React, SQL Server*

- Built configuration modules and financial reporting; handled production hotfixes ensuring 24/7 uptime for 10+ financial entities certified by the Central Bank of Costa Rica.

NovaToken — Two-Factor Authentication (2FA) *C#, .NET, React, SQL Server*

- Developed React-based BackOffice and maintained OTP token logic (60s expiry); compliance with financial regulators across LATAM.

NovaBank — Omnichannel Internet Banking for Credit Unions *C#, .NET, React, SQL Server*

- Built fund transfer modules and core banking integrations for Coopeguanacaste and Coope San Ramón. OWASP Top 10 compliant.

JUPEMA — Custom System *Java, .NET, Blazor, Oracle*

- Built a new digital case management and reporting system for Costa Rica's National Teachers' Pension Fund.

Software Development Intern

Innovative S.A. · San José, CR · On-site
May 2022 – August 2022

- Contributed to a web and mobile payroll solution using **Vue.js, React Native, .NET, and SQL Server**; designed the database schema and stored procedures; built a secure REST API with .NET Core.
- Implemented push notifications and monitoring integrations with **OneSignal, Firebase Analytics, and Crashlytics**; analyzed usage, performance, and security data with **Python and Power BI**.
