PROFESSIONAL SUMMARY

Software engineer with 3+ years of experience building backend and full-stack solutions on the Microsoft stack. Strong background in C#, .NET, ASP.NET Core, REST APIs, SQL Server, Oracle, React, TypeScript, and Azure DevOps. Experience in financial-sector and internal business applications, with additional exposure to technical pre-sales, Microsoft Cloud solutions, AI, and stakeholder-facing work.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, REST APIs, JWT authentication | **Architecture:** Microservices, Clean Architecture, DDD, MVC, Dependency Injection | **Data:** SQL Server, Oracle, MySQL, query optimization, stored procedures | **Cloud/DevOps:** Azure DevOps, CI/CD pipelines, repositories, Test Plans | **Frontend:** React, Vue, Angular, Blazor, JavaScript, TypeScript | **Additional:** Python, Java, React Native

PROFESSIONAL EXPERIENCE

Pre-Sales Engineer | Microsoft Cloud & AI Solutions - Novacomp S.A.

San Jose, Costa Rica | Hybrid | Oct 2025 - Feb 2026

- Hybrid role across business development, technical pre-sales, and commercial consulting for Microsoft Cloud solutions.
- Generated and qualified opportunities related to Azure, Azure DevOps, Microsoft Fabric, Purview, Power Platform, Microsoft 365, and business AI use cases.
- Led technical and consultative conversations with clients, translating business needs into practical solution approaches.
- Supported demos, dashboards, automations, proposals, workshops, and commercial meetings with stakeholders and technical teams.
- Evolved from SDR Tech into a pre-sales-oriented role, independently leading meetings and averaging about 10 qualified meetings per month.

Software Engineer I (Full Stack) - Innovative S.A.

San Jose, Costa Rica | Remote and on-site depending on project | Oct 2022 - Sep 2025

- Built enterprise REST APIs with ASP.NET Core and C# for financial-sector solutions.
- Implemented backend services using Clean Architecture, DDD, secure JWT-based authentication, and integrations with internal and external systems.
- Designed and optimized SQL Server and Oracle objects, including stored procedures, functions, and performance tuning.
- Automated deployments to multiple environments through Azure DevOps CI/CD pipelines.

Software Development Intern - Innovative S.A.

San Jose, Costa Rica | On-site | May 2022 - Sep 2022

- Contributed to NovaExpediente, a web and mobile solution built with Vue, React Native, .NET, and SQL Server.
- Supported backend structure and API work with .NET Core, plus selected module work in Python and Java.
- Implemented push notifications and monitoring integrations with OneSignal, Firebase Analytics, and Crashlytics.

EDUCATION

Licentiate Degree in Computer Engineering with Emphasis in Software Development

ULACIT | May 2023 - May 2024

Bachelor's Degree in Computer Systems Engineering

Universidad Latina de Costa Rica | Apr 2019 - Dec 2022

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft 365 Certified: Fundamentals (MS-900) | Scrum Foundation Professional Certificate (SFPC)

LANGUAGES

Spanish - Native | English - C1 (TOEIC)
