■ PROFILE

Full-Stack **Software Engineer** with **3+ years** building mission-critical fintech — **SINPE electronic payments, 2FA security, and digital banking** — for BCCR-certified institutions in the Costa Rican financial sector. Currently delivering AI-enhanced enterprise systems in Java and .NET. Dual profile: hands-on engineering plus **Microsoft Cloud pre-sales** (Azure, Fabric, Power Platform) — fluent in the code and in the business case behind it.

■ PROFESSIONAL EXPERIENCE

Software Engineer

April 2026 – Present

Innovative S.A. (Novacomp Group) · San José, CR · Hybrid

- Develop and maintain enterprise systems for financial-sector clients across **Java, .NET, React, and SQL Server** stacks — **TypeScript/JavaScript** front ends and **Python** tooling — applying **AI** to extend product capabilities and accelerate delivery.
- Drive **quality assurance** across the release cycle with automated E2E testing in **Playwright and Selenium** — functional and regression coverage, defect management — protecting the reliability of production fintech systems.

SDR / Pre-Sales Engineer

October 2025 – February 2026

Servicios Computacionales Novacomp S.A. · San José, CR · Hybrid

- Generated and qualified pipeline for **Azure, Microsoft 365, Power Platform, MS Fabric, and Azure DevOps** solutions, averaging **~15 qualified meetings per month**.
- Led technical-consultative conversations translating business needs into Microsoft Cloud and AI solution roadmaps; progressed to **independent pre-sales**, leading workshops and proposals without supervision.

Software Engineer

October 2022 – September 2025

Innovative S.A. (Novacomp Group) · San José, CR · Hybrid

- Built and maintained **4 fintech SaaS products** for clients including **Scotiabank, Banco BCT, DiDi, MultiMoney, Improsa Valores, MIDEPLAN, JUPEMA, and JPC Solutions**, plus national credit unions.

NovaMP SINPE — Electronic Payments Platform (BCCR) C# · .NET · React · SQL Server

Built configuration and financial-reporting modules; delivered production hotfixes sustaining **24/7 uptime for 10+ financial entities** certified by the Central Bank of Costa Rica.

NovaToken — Two-Factor Authentication (2FA) C# · .NET · React · SQL Server

Developed the React BackOffice and maintained OTP token logic (60-second expiry), meeting **financial-regulator requirements across LATAM**.

NovaBank — Omnichannel Internet Banking C# · .NET · React · SQL Server

Built fund-transfer modules and core-banking integrations for Coopeguanacaste and Coope San Ramón; **OWASP Top 10 compliant**.

JUPEMA — Digital Case Management Java · .NET · Blazor · Oracle

Delivered a new case-management and reporting system for **Costa Rica's National Teachers' Pension Fund**.

Also contributed to NovaSign — digital signature & sealing (BCCR), NovaCloud — SINPE-compliant cloud, and custom app development.

Software Development Intern

May 2022 – August 2022

Innovative S.A. · San José, CR · On-site

- Built a web and mobile payroll solution — **iOS app & Android app** in production — with **Vue.js, React Native, and .NET Core** — designed the SQL Server schema and stored procedures and delivered a secure REST API.
- Integrated **OneSignal, Firebase Analytics, and Crashlytics**; analyzed usage, performance, and security data with **Python and Power BI**.
